

**Missouri Schoolwide Positive Behavior Support (MO SW-PBS)
Districts Implementing District-wide 2010-2011**

Because of the wide variance in resources available to our school districts in Missouri, the following two criteria have been identified by MO SW-PBS as those that demonstrate commitment to a district-wide initiative:

1. A district-level team oversees the SW-PBS work within the district (does not have to be a team specifically dedicated to this, but one that identifies SW-PBS as one of the team responsibilities)
2. A district-level person is assigned as a facilitator for all schools within the district that are implementing SW-PBS (recommended that all or part of the facilitator FTE be officially designated for this responsibility, but is not required)

+ = District Level Team

*** = Coordinator Designated**
