
## Beyond Bells & Whistles

# Integrating Technology with Instruction to Engage Students

**Agency for Teaching, Leading, & Learning**

Tracy Gross, PD Consultant & Lori Slater, MO SW-PBS Consultant

**The first thing students need to learn is what they're supposed to be learning.**

**-Moss, Brookhart, & Long**

**Student engagement strategies** integrated with technology.

## Managing Classroom Technology Use

## Importance of Teaching with Technology

To provide students more learning opportunities within the classroom

# Learning Goals: What will you learn today?

Generate two thoughts about why it is important for teachers to integrate technology

Identify two technology-enhanced **engagement strategies**

**Commit to Implement One!**

Choose one tech-tool to try next year

Begin a classroom technology plan that **fosters digital citizenship** and defines your classroom **expectations, rules, & procedures**

# Using Technology to Engage Students

## Connections

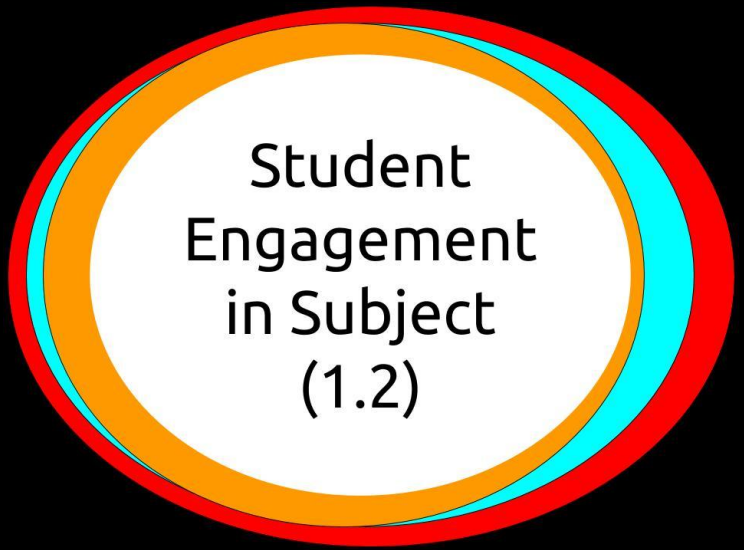
**People**

**Resources**

**Content**

Identify two student engagement strategies enhanced by technology

# 1 Content Knowledge Aligned with Instruction



Research and Proven Practices of Dr. Robert Marzano

MISSOURI'S EDUCATOR EVALUATION SYSTEM

# 5 Positive Classroom Environment

Classroom Management (5.1)

Research and Proven Practices of Dr. Robert Marzano
