Research-Suggested Steps to Bully Prevention

What Works/What Doesn't

Misdirection in Bullying Prevention

- Simple, short-term solutions
- “Program du jour approaches”
- Group treatment for children who bully
- Self-esteem enhancement for children who bully
- Zero Tolerance policies for bullying
- Peer Mediation/Conflict Resolution to resolve bullying issues

What we know works

- Climate Change
- Adults Model
- Stakeholder Input
- Empowerment
- Student Driven

COPS

Community Oriented Policing Services

U.S. Department of Justice

- Enlisting the school principal's commitment
 - Using the 'whole-school' approach
 - Increasing student reporting of bullying
 - Developing activities in less-supervised areas
 - Providing teachers with effective classroom management training
- Reducing the amount of time students can spend less supervised
 - Staggering recess, lunch, and/or class release times
 - Posting classroom signs prohibiting bullying and listing the consequences
 - Monitoring areas where bullying can be expected

Evaluate Your Bully-Prevention Policy

Beginning the check list...

- ✓ Do you have a documented policy and plan for bully prevention?
- ✓ Is your anti-bullying policy provided for all stakeholders and do you have scheduled training on the calendar?
- ✓ Do you have a reporting process for all stakeholders, a process for collecting and reviewing data?
- ✓ Is there a way to access bully behavior issues in your building?
- ✓ Do you provide intervention and resources for all roles of bully behavior situations?

Bullying Prevention Policy

Does it contain:

- Bully definition
- Common vocabulary for all stakeholders
- Training process (person responsible/resources/schedule)
- Reporting forms
- Evaluating the building for bully behavior
- Intervention for all roles

What does Bully Behavior look like?

- A student is being bullied when he or she is exposed, repeatedly and over time, to negative actions on the part of one or more students.
- Bullying involves an imbalance in power or strength.
- The student who is bullied has difficulty defending himself/herself.

Who are the stakeholders?

- Teachers
- Staff
- Students
- Parents
- Volunteers
- Community

Terms to look closely at:

- Respect
- Dignity
- Empower
- In-civil behavior
- Self protect
- Bully/Target

Training for all Stakeholders

- Setting up staff committee/training topics
- Student training, student driven
- Parent resources

Present the Challenge

Create the climate
that will not allow
bullying to take place

Worthwhile Discussion:

- Replace the word bully – use ‘bully behavior’
- Be careful of labels
- Teach empathy
- Talk about resilience

Resiliency Theory

Schools help students by:

- Providing opportunities for success
- Communicating relevance of education to future
- Building internal motivation
- Building problem solving skills
- Building skills to address personal issues
- Create caring and supportive environments with meaningful relationships

Teach all students to remove the rewards that sustain bullying behavior.

- Teach how to respond if someone is NOT respectful.
- What does it look like when people are not respectful?
- Why do these behaviors keep happening?
- What should you do?
 - If you experience someone doing these behaviors to you?
 - If you see someone else in these situations?
 - If someone tells YOU that your behavior is disrespectful?

Evaluating Your Building for Bully Behavior

Create Surveys

- Teacher
- Student

- Ask them if they believe there really is a problem
- Do they know district policies
- Provide several self-reflection statements
- Ask if they have intervened in a bully situation and what they did

Student Survey

- Ask if they feel safe at school
- Ask if they have 1) been bullied, 2) used bully behavior 3) saw someone being bullied- circle all that apply
- What types of bully behavior have they witnessed (where)
- Who would they tell about a bully incident
- Name adults they would tell

Climate Survey - School Safety Survey (SSS) Self Assessment Survey (SAS)

- Address **emotional, physical, and behavioral**
- Assess annually
- Students, families, teachers, administrators
- Communicate findings
- Take action
- Repeat (re-assess annually, celebrate improvements, plan!)

Interventions for all Roles and Resources

Bully Behavior

Intervention for Bully Behavior

The Logic

- Bullying is “behavior” ... not a trait.
- Bullying happens much more than we think/see, and is a major barrier to effective education.
- Bullying is maintained by social rewards from other students (target and bystanders):
 - Not consequences from adults
- Bullying will continue as long as it continues to be rewarded.
 - Even if we teach appropriate behavior and punish bullying
- Preventing bullying requires that students remove the social rewards that maintain bullying behaviors.

Consequence Levels (example)

Level 1- First offense: teacher conference

Level 2- Second and third offense: Administrator conference with
consequence

Level 3- Severe bullying incident or recurring bullying
serious action taken

Bystander

Build an Upstander Climate/Empower the Bystander

Mobilizing Bystanders

Teach:

The power of a bystander- peers can reduce the audience.

Teach what bullying looks and sounds like.

Teach the difference between tattling and reporting.

'Bully Buster' Skills

Befriend the Target

Use distraction

Speak out and stand up

Tell or text for help

Exit alone or with others

give a Reason or offer a remedy

Target

Caring for the Targeted Student

Tips for Target

Provide Safety and Support

Develop a method to notify pertinent staff

Identify adult allies for the bullied student

Create a safety plan for the bullied student

Have 'safe place' signs, stickers or areas

Create a private signal for students to let adults know they need help

Teasing- Facts

Girls-
Themes of social cruelty,
deception, hurt feelings,
being left out

Boys-
Include themes of intimidation,
Power, control, etc.

Friendly-
Acceptable teasing appears more
characteristic among adolescents

Mean-Spirited
Mostly happens among
8-10 year olds.

Everyone is teased at some point – others are often targeted

- Overreacting to teasing
- Being atypical
- Having atypical physical or behavioral attributes
- Being socially or athletically unskilled
- Most teasing is done by groups to an individual

Teasing

- Teasing among friends is sometimes o.k. while teasing strangers is not
- Suggested responses to teasing include
 - Ignoring
 - Asking them to stop
 - Leaving
- **Response**
 - Teasing
 - Name calling
 - Getting mad
 - Crying, hitting or tantrum
 - Threats

8-10 year olds have firm beliefs in their effectiveness to stop teasing, but actually have no effect or make it worse.

(Walker, Ramsey, & Gesham, 2004)

Rough Play	Real Fighting	Bullying
Usually friends; often repeated (same players)	Usually not friends; typically not repeated	Typically not friends; generally repeated
Balance of power	Power relatively equal	Unequal power
No intent to harm	Intentional harm doing	Intentional harm doing
Affect is friendly; positive, mutual	Affect negative; aggressive, tense, hostile affect	Affect negative; aggressive & differs for victim and aggressor

Individualize Your SW-PBS System for Bully Prevention

Clarify Expectations

Science of Behavior

- Kids are not born bad
- Kids fulfill our expectations
- Behavior is learned
- Behavior can change
- Changing the environment changes behavior
- Appropriate and effective feedback leads to changes in behavior

- Establish a **whole-school social culture** where positive behavior is “expected” and rewards for bullying are NOT provided.
 - **Teach “be respectful” as a basic concept for the school**
 - **Teach what “not respectful” looks like.**
- All students know what is expected, and can identify the difference between respectful and disrespectful behavior.
 - **Student to Student**
 - **Student to Adult**
 - **Adult to Student**

Example of School Rules/Expectations

- We will treat others with Respect instead of using bully behaviors
- We will not bully others.
- We will try to help students who are bullied.
- We will include students who are easily left out.
- When we know somebody is being bullied, we will tell an adult at school and an adult at home.

How to Implement Bully Prevention in PBS

- **School**

- Implement School-wide PBS
- Faculty commitment
- Faculty introduction to BP
- Team to implement
- Build BP lessons for students
- Train all students
- Booster/Follow up lessons
- Coaching support for supervisors
- Collect and use data

- **District**

- Build expectation for all schools
- Fall orientation emphasis on social behavior
- District trainer/coordinator
- District reporting of:
 - Schools using BP-PBS
 - Fidelity of implementation
 - Impact on student behavior

Create A Plan

- Focus Committee
- Evaluate the Building
- Start Conversation/Staff Training
- Student Driven

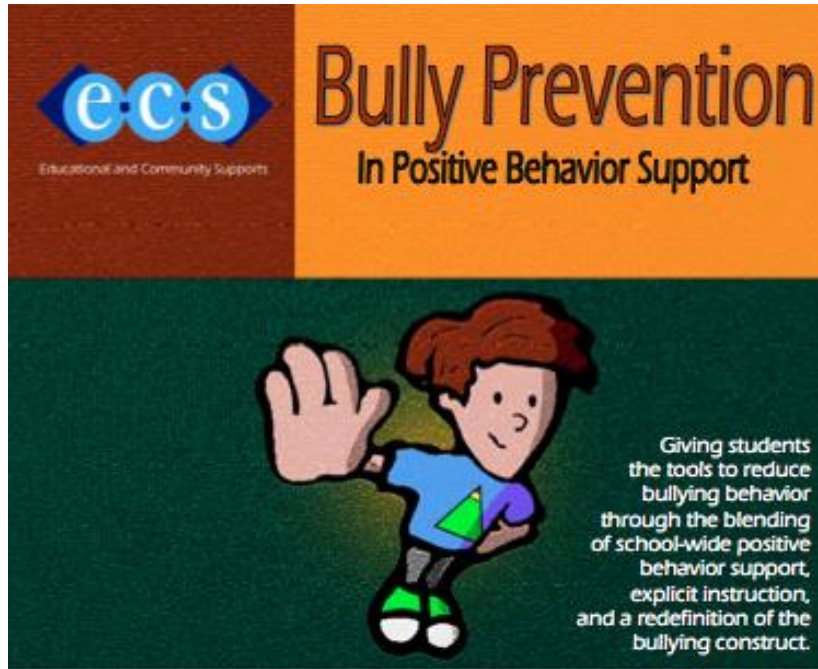

**Bully prevention is not
a one size fit all.**

In Review

- Be easy and do-able by all
- Be contextually relevant
- Result in early disengagement
- Increase predictability
- Be pre-emptive
- Be teachable
- Be brief
