CHAPTER 10: TIERED FIDELITY INVENTORY (TFI)

Algozzine, Barnett, Eber, George, Horner, Lewis, Putnam, Swain-Bradway, McIntosh, and Sugai (2014)

LEARNER OUTCOMES

At the conclusion of this chapter, you will be able to:

- Describe the TFI, what it measures, and the rationale.
- Understand MO SW-PBS protocol for taking the TFI.
- Complete the TFI to self-assess the implementation status of Tier 1 (universals), Tier 2 (secondary, targeted) behavior support systems and Tier 3 (tertiary, intensive) behavior support systems for the levels at which you have trained and/or are implementing.

Purpose

The purpose of the TFI is to provide an efficient tool for teams to self-assess implementation fidelity at Tier 1 (universal), Tier 2 (secondary targeted) and Tier 3 (tertiary intensive) intervention levels. The TFI was designed to ultimately replace several of the assessment tools currently used by SW-PBS schools, including the Benchmarks of Quality (BoQ) (Kincaid, Childs, and George, 2010) and the Benchmarks for Advanced Tiers (BAT) (Anderson, Childs, Kincaid, Horner, George, Todd, Sampson, and Spaulding, 2010). To be sure, recent research suggests that the Tier 1 scale of the TFI can be considered to be equivalent to the BoQ (Mercer, McIntosh, and Hoselton, 2016, forthcoming).

Results from the TFI can be used to monitor overall implementation fidelity, to monitor progress toward short or long-term goals, and to determine action steps that address areas of concern.

The TFI reports yield a Total Score, a Scale Report, and a Subscale Report. In addition, the team can pull a report of scores for each item. The Total Score Report is an aggregate of the scores for the sections assessing each of the three tiers. The Scale Report is the score for each of the three tiers, respectively. Finally, the Subscale Report provides scores for components that make up each of the three tiers assessed by the TFI. These components are listed below:

D. Evaluation
Instructions for Completing the TFI

Prior to taking the TFI, the TFI walkthrough should be completed. It is recommended that an external coach conduct this walkthrough. This walkthrough should take approximately 15 minutes to complete, and involves interviewing 10% of randomly selected staff members (or a minimum of 5 in very small schools), and 10 randomly selected students. The individual conducting the walkthrough also looks for expectations and rules posted in at least 5 locations. A copy of the walkthrough form is included at the end of this section.

In addition, the TFI administration will be more efficient if the team gathers necessary artifacts prior to conducting the TFI. Recommended artifacts include the following:

Tier 1:
- School team organizational chart
- School/district policies on social behavior/support
- Team meeting minutes for last 3 meetings
- Team roles and responsibilities
- Action plan
- Staff handbook
- Student handbook
- Professional learning plan for past year
- Prior PBIS fidelity measures (last two years)
- Student behavioral data summary for past month
- Major ODR per day per month compared to the national median
- Universal screening measures and process
- Any prior evaluation reports focused on social behavior
- Any reports to school administration or board focused on social behavior
- Completed TFI Walkthrough Tool
- Discipline flow chart
- Universal lesson plans
- Lesson plan schedule

Tier 2:
- Tier II team meeting minutes (last 2)
- MO SW-PBS Existing School Data Inventory
- Nomination forms
- Universal screener(s)
- Data decision rules
- Tier II strategy, handbooks, or procedures (i.e. CICO, SSIG, CandC, SM)
- Intervention Essential Features document for each intervention
- Available Tier II data summaries (if possible for the past two months)
- Family communication systems
- Most recent fidelity measures for Tier II strategies
- School schedule
- Tier II lesson plans
- Acknowledgement/recognition system
- Intervention tracking tool (ex. Advanced Tiers Spreadsheet, CICO-SWIS)
- MO SW-PBS Intervention Outcome Data
Tier 3:
- Tier III core team meeting minutes (Last 3 meetings)
- Tier III action team meeting minutes (Last 3 meetings)
- Decision rules for selecting students for Tier 3
- Assessment tools for Tier 3 (i.e. functional behavioral assessment, mental health, medical records, etc.)
- Three randomly selected Behavior Intervention Plans
- Tier 3 data summary (last two reports)

Once the walkthrough has been completed and the team has gathered the required documentation, they are ready to take the TFI. It is recommended that the TFI be taken by the team in cooperation with an external coach, although the team can take it by themselves.

The TFI is divided into three sections or scales, one for each tier. Each section has 15-17 items. Each item is scored 0 (not in place), 1 (partially in place), or 2 (fully in place). The team votes on how to score each item, and the score with the majority of votes is recorded. According to the PBIS National Center (Algozzine, Barrett, Eber, George, Horner, Lewis, Putnam, Swain-Bradway, and McIntosh, 2014) each Tier of the TFI takes between 15 and 30 minutes for the team to complete, depending on their level of experience and whether they gathered the necessary artifacts ahead of time. PBIS National Center recommends that the team complete the sections for all three tiers the first time that they take the TFI, in order to obtain baseline scores. After that, the team may elect to take all three sections, or they may choose to take only those sections that pertain to their level(s) of implementation.

PBIS National Center (Algozzine, Barrett, Eber, George, Horner, Lewis, Putnam, Swain-Bradway, and McIntosh, 2014) also recommends that teams take the TFI each quarter until they achieve three consecutive total scores of 80% for the Tier that is assessed. After that, they may choose to shift to an annual assessment for that particular Tier.

MO SW-PBS recommends that teams that are training and/or implementing at Tier 2 or better, as well as teams that have achieved two consecutive scores of 80/80 on the SET, take the TFI for the levels at which they have been trained and/or are implementing at least annually in the spring. For teams new to Tier 2 or Tier 3, MO SW-PBS also recommends they take the TFI in the fall of their first year of training at that level for baseline comparison. In addition, schools may choose to take a given scale of the TFI at any time during the school year for purposes of progress monitoring improvement efforts at that tier.

To accurately assess each tier, the Tier 1 team completes the Tier 1 scale; the Tier 2 Team completes the Tier 2 scale; and the Tier 3 team completes the Tier 3 scale. Scoring is based on artifact review and stakeholder feedback.

To assist schools in taking the TFI and obtaining reports, the faculty of Educational and Community Supports operating out of the University of Oregon has included the TFI on the PBIS Assessments site. This site is free to schools, and is accessed through PBIS APPS (https://www.pbisapps.org/). A small number of school based personnel are set up with a PBIS APPS Assessments Team Member account, through which these individuals may access surveys and download survey reports for their school. To obtain your free PBIS APPS Assessments account, contact your MO SW-PBS Regional Consultant.

Prior to entering TFI scores in PBIS Assessments, the team will need to contact their MO SW-PBS regional consultant, so that he or she can open a TFI window. Although PBIS Assessments allows teams to return and edit a TFI submission, MO SW-PBS recommends that teams complete all scales of the TFI that they
intend to take prior to entering the data into PBIS Assessments. To assist teams in accomplishing this, teams may use the MO SW-PBS TFI Scoring Guide located at the end of the chapter.

To enter scores from the TFI into the PBIS Assessments site, a team member with a PBIS APPS Assessments account must first log into the PBIS APPS site, and then navigate to PBIS Assessments. If the team member only has access to PBIS Assessments, he or she will automatically be directed to the school’s PBIS Assessments site. However, if the team member also has access to other PBIS APPS products (i.e., SWIS), the team member will need to select “Assessments” from the menu bar at the top of the screen.

The team member will then choose the “Schoolwide PBS Tiered Fidelity Inventory 2.10” from among the open surveys, then click on “Take Survey.” The team member will enter the date, then use the two dropdown menus to identify who was involved in taking the survey, and who conducted the TFI Walkthrough. The team member will then click on the green button with the >> symbol to move onto the remainder of the survey. For each item, the rating that received the highest number of votes from the team members is recorded. **Scores should not be entered for those sections that the team is not assessing, as a 0 indicates “Not Implemented,” whereas a blank simply indicates “No Score.”** When all the scores are entered, there will be a green button with the following symbols: << >>. The team member entering the information should click on the >> symbol, which will navigate to a page that allows the team member to submit the survey.
The total score report gives a big picture snapshot of the school. In this example, the team has taken the TFI twice, once on May 5, 2014, and a second time on May 22, 2015. As can be seen, the total score dropped significantly between the first administration of the TFI and the second. It should be noted teams do not have to complete each of the three TFI scales in order to submit. Scales not completed are still included in the total score. As such, total scores are not necessarily comparable from one administration of the TFI to the next, and teams should use caution when interpreting these scores.
The scale report provides a quick, visual summary of the level of implementation at each of the three tiers. Notice that the team reports a fairly significant improvement in the implementation of Tier 1. Also notice that this team took all three scales of the TFI during the first administration on May 4, 2014, but only completed the Tier 1 scale on May 22, 2015. This may explain the significant decrease in the total score on the second administration of the TFI.
The subscale report gives the team information regarding implementation fidelity in the scales of each of the three tiers. The chart below indicates the school showed improvements in all Tier 1 scales of the TFI between the first and second administration. However, the chart also suggests that the team has opportunities for growth in the scale of “Tier 1 Teams.” This team may want to take a closer look at how they rated themselves on each of the items in the “Tier 1 Teams” scale to identify specific areas around which to plan action steps.

Figure 10.3
ITEMS

The final TFI report is the items report. This is a report of how the team rated themselves on each of the items on the TFI. It is divided into scales and subscales so that the team can quickly analyze their scores on any given scale, and identify appropriate action steps based on this analysis. Depending on the complexity of the items, the team should focus on a small number of goals and action steps at a time.

In our example, the team noted an opportunity for growth on the scale report in the subscale “Tier 1 Teams.” The item report indicates that they rated themselves a 1 partially in place in both “Team Composition” and “Team Operating Procedures.” Referring to the artifacts that they used as they rated these items as well as their knowledge of their team function, the team decides that they can improve their team composition by adding a member with behavioral expertise. They also realize that they can improve their team’s operating procedures by utilizing an agenda and identifying team roles and responsibilities. The team discusses these items, and decide that both are realistic action steps to have in place by their next meeting.

![Teams Subscale](Figure 10.4)

**ACTIVITY**

- If possible, contact an external coach or regional consultant to conduct the TFI walkthrough.
- As a team, in collaboration with the external coach or regional consultant, complete the TFI. Vote on how to rate each item. Assign one team member to enter the scores into the PBIS APPS Assessments Site.
- Review the Total Score report, the Scale report, and the Subscale report.
- If a score is low for a Scale, review the responses to the items for that particular Scale section of the items report. These become goals for your action plan.
- Develop action steps to address the areas of concern identified in your analysis of the data.
SWPBIS Tiered Fidelity Inventory Walkthrough Tool

OVERVIEW

Purpose
This form is used as part of completing the SWPBIS Tiered Fidelity Inventory’s Tier I scale. Use this form to interview a random selection of staff (at least 10% of staff or at least 5 for smaller schools) and students (minimum of 10). This process should take no more than 15 minutes.

Who Should Complete the Tool?
It is recommended that this tool is completed by an individual who is external to the school (e.g., external coach, coordinator, evaluator). This use allows for the Tiered Fidelity Inventory to serve as more of an external evaluation than self-assessment. Alternatively, an individual from the school team may complete this tool if the purpose of assessment is for progress monitoring between external evaluations.

Procedure
Randomly select staff and students as you walk through the school. Use this page as a reference for all other interview questions. Use the interview form to record staff and student responses.

Staff Interview Questions
Interview at least 10% of staff or at least 5 for smaller schools

1. What are the ___________________________? (Define what the acronym means)
   (school rules, high 5’s, 3 bee’s)

2. Have you taught the school rules/behavioral expectations this year?

3. Have you given out any ____________________________ since ____________?
   (rewards for appropriate behavior)                        (2 months ago)

Student Interview Questions
Interview a minimum of 10 students

1. What are the ___________________________? (Define what the acronym means)
   (school rules, high 5’s, 3 bee’s)

2. Have you received a ____________________________ since ____________?
   (reward for appropriate behavior)                        (2 months ago)

| **1.1 Team Composition:** Tier I team includes a Tier 1 systems coordinator, a school administrator, a family member, and individuals able to provide (a) applied behavioral expertise, (b) coaching expertise, (c) knowledge of student academic and behavior patterns, (d) knowledge about the operations of the school across grade levels and programs, and for high schools, (e) student representation. | • School organizational chart  
• Tier I team meeting minutes | 0 = Tier I team does not exist or does not include coordinator, school administrator, or individuals with applied behavioral expertise  
1 = Tier I team exists, but does not include all identified roles or attendance of these members is below 80%  
2 = Tier I team exists with coordinator, administrator, and all identified roles represented, AND attendance of all roles is at or above 80% |
| **1.2 Team Operating Procedures:** Tier I team meets at least monthly and has (a) regular meeting format/agenda, (b) minutes, (c) defined meeting roles, and (d) a current action plan. | • Tier I team meeting agendas and minutes  
• Tier I meeting roles descriptions  
• Tier I action plan | 0 = Tier I team does not use regular meeting format/agenda, minutes, defined roles, or a current action plan  
1 = Tier I team has at least 2 but not all 4 features  
2 = Tier I team meets at least monthly and uses regular meeting format/agenda, minutes, defined roles, AND has a current action plan |
| **Subscale: Implementation** | | |
| **1.3 Behavioral Expectations:** School has five or fewer positively stated behavioral expectations and examples by setting/location for student and staff behaviors (i.e., school teaching matrix) defined and in place. | • TFI Walkthrough Tool  
• Staff handbook  
• Student handbook | 0 = Behavioral expectations have not been identified, are not all positive, or are more than 5 in number  
1 = Behavioral expectations identified but may not include a matrix or be posted  
2 = Five or fewer behavioral expectations exist that are positive, posted, and identified for specific settings (i.e., matrix) AND at least 90% of staff can list at least 67% of the expectations |

Scoring Criteria: 0=Not implemented; 1=Partially implemented; 2=Fully implemented
1.4 Teaching Expectations:
Expected academic* and social behaviors are taught directly to all students in classrooms and across other campus settings/locations.

**SCORING CRITERIA**

- **0** = Expected behaviors are not taught
- **1** = Expected behaviors are taught informally or inconsistently
- **2** = Formal system with written schedules is used to teach expected behaviors directly to students across classroom and campus settings

* MO SW-PBS trains and provides support for data-based decision making for social behavioral outcomes only. Although best practice would be to apply this logic to academic interventions and outcomes, teams are asked to reply on SW-PBS work only.

1.5 Problem Behavior Definitions:
School has clear definitions for behaviors that interfere with academic and social success and a clear policy/procedure (e.g., flowchart) for addressing office-managed versus staff-managed problems.

**SCORING CRITERIA**

- **0** = No clear definitions exist, and procedures to manage problems are not clearly documented
- **1** = Definitions and procedures exist but are not clear and/or not organized by staff-versus office-managed problems
- **2** = Definitions and procedures for managing problems are clearly defined, documented, trained, and shared with families

MO SW-PBS Response Continuum can serve as a possible source of data.

1.6 Discipline Policies:
School policies and procedures describe and emphasize proactive, instructive, and/or restorative approaches to student behavior that are implemented consistently.

**SCORING CRITERIA**

- **0** = Documents contain only reactive and punitive consequences
- **1** = Documentation includes and emphasizes proactive approaches
- **2** = Documentation includes and emphasizes proactive approaches AND administrator reports consistent use

1.7 Professional learning:
A written process is used for orienting all faculty/staff on 4 core Tier I SWPBIS practices: (a) teaching schoolwide expectations, (b) acknowledging appropriate behavior, (c) correcting errors, and (d) requesting assistance.

**SCORING CRITERIA**

- **0** = No process for teaching staff is in place
- **1** = Process is informal/unwritten, not part of professional learning calendar, and/or does not include all staff or all 4 core Tier I practices
- **2** = Formal process for teaching all staff all aspects of Tier I system, including all 4 core Tier I practices

### 3.8 Quality of Life Indicators:
Assessment includes student strengths and identification of student/family preferences for individualized support options to meet their stated needs across life domains (e.g., academics, health, career, social).

- Three randomly selected Tier III student behavior support plans created in the last 12 months (see TFI Tier III Support Plan Worksheet)*

| 1 = Strengths and larger quality of life needs and related goals defined, but not by student/family or not reflected in the plan |
| 2 = All plans document strengths and quality of life needs and related goals defined by student/family |

### 3.9 Academic, Social, and Physical Indicators:
Assessment data are available for academic (e.g., reading, math, writing), behavioral (e.g., attendance, functional behavioral assessment, suspension/expulsion), medical, and mental health strengths and needs, across life domains where relevant.

- Three randomly selected Tier III student behavior support plans created in the last 12 months (see TFI Tier III Support Plan Worksheet)*

| 0 = Student assessment is subjective or done without formal data sources, or there are no Tier III support plans |
| 1 = Plans include some but not all relevant life-domain information (e.g., medical, mental health, behavioral, academic) |
| 2 = All plans include medical, mental health information, and complete academic data where appropriate |

### 3.10 Hypothesis Statement:
Behavior support plans include a hypothesis statement, including (a) operational description of problem behavior, (b) identification of context where problem behavior is most likely, and (c) maintaining reinforcers (e.g., behavioral function) in this context.

- Three randomly selected Tier III student behavior support plans created in the last 12 months (see TFI Tier III Support Plan Worksheet)*

| 0 = No plans include a hypothesis statement with all 3 components, or there are no Tier III support plans |
| 1 = 1 or 2 plans include a hypothesis statement with all 3 components |
| 2 = All plans include a hypothesis statement with all 3 components |

### 3.11 Comprehensive Support:
Behavior support plans include or consider (a) prevention strategies, (b) teaching strategies, (c) strategies for removing rewards for problem behavior, (d) specific rewards for desired behavior, (e) safety elements where needed, (f) a systematic process for assessing fidelity and impact, and (g) the action plan for putting the support plan in place.

- Three randomly selected Tier III student behavior support plans created in the last 12 months (see TFI Tier III Support Plan Worksheet)*

| 0 = No plans include all 7 core support plan features, or there are no Tier III support plans |
