CHAPTER 10: TIERED FIDELITY INVENTORY (TFI)

Algozzine, Barnett, Eber, George, Horner, Lewis, Putnam, Swain-Bradway, McIntosh, and Sugai (2014)

LEARNER OUTCOMES

At the conclusion of this chapter, you will be able to:

- Describe the TFI, what it measures, and the rationale.
- ► Understand MO SW-PBS protocol for taking the TFI.
- ► Complete the TFI to self-assess the implementation status of Tier 1 (universals), Tier 2 (secondary, targeted) behavior support systems and Tier 3 (tertiary, intensive) behavior support systems for the levels at which you have trained and/or are implementing.

Purpose

The purpose of the TFI is to provide an efficient tool for teams to self-assess implementation fidelity at **Tier 1 (universal), Tier 2 (secondary targeted) and Tier 3 (tertiary intensive) intervention levels**. The TFI was designed to ultimately replace several of the assessment tools currently used by SW-PBS schools, including the Benchmarks of Quality (BoQ) (Kincaid, Childs, and George, 2010) and the Benchmarks for Advanced Tiers (BAT) (Anderson, Childs, Kincaid, Horner, George, Todd, Sampson, and Spaulding, 2010). To be sure, recent research suggests that the Tier 1 scale of the TFI can be considered to be equivalent to the BoQ (Mercer, McIntosh, and Hoselton, 2016, forthcoming).

Results from the TFI can be used to monitor overall implementation fidelity, to monitor progress toward short or long-term goals, and to determine action steps that address areas of concern.

The TFI reports yield a Total Score, a Scale Report, and a Subscale Report. In addition, the team can pull a report of scores for each item. The Total Score Report is an aggregate of the scores for the sections assessing each of the three tiers. The Scale Report is the score for each of the three tiers, respectively. Finally, the Subscale Report provides scores for components that make up each of the three tiers assessed by the TFI. These components are listed below:

Instructions for Completing the TFI

Prior to taking the TFI, the TFI walkthrough should be completed. It is recommended that an external coach conduct this walkthrough. This walkthrough should take approximately 15 minutes to complete, and involves interviewing 10% of randomly selected staff members (or a minimum of 5 in very small schools), and 10 randomly selected students. The individual conducting the walkthrough also looks for expectations and rules posted in at least 5 locations. A copy of the walkthrough form is included at the end of this section.

In addition, the TFI administration will be more efficient if the team gathers necessary artifacts prior to conducting the TFI. Recommended artifacts include the following:

Tier 1:

- School team organizational chart
- School/district policies on social behavior/support
- Team meeting minutes for last 3 meetings
- Team roles and responsibilities
- Action plan
- Staff handbook
- Student handbook
- Professional learning plan for past year
- Prior PBIS fidelity measures (last two years)
- Student behavioral data summary for past month
- Major ODR per day per month compared to the national median
- Universal screening measures and process
- Any prior evaluation reports focused on social behavior
- Any reports to school administration or board focused on social behavior
- Completed TFI Walkthrough Tool
- Discipline flow chart
- Universal lesson plans
- Lesson plan schedule

Tier 2:

- Tier II team meeting minutes (last 2)
- MO SW-PBS Existing School Data Inventory
- Nomination forms
- Universal screener(s)
- Data decision rules
- Tier II strategy, handbooks, or procedures (i.e. CICO, SSIG, CandC, SM)
- Intervention Essential Features document for each intervention
- Available Tier II data summaries (if possible for the past two months)
- Family communication systems
- Most recent fidelity measures for Tier II strategies
- School schedule
- Tier II lesson plans
- Acknowledgement/recognition system
- Intervention tracking tool (ex. Advanced Tiers Spreadsheet, CICO-SWIS)
- MO SW-PBS Intervention Outcome Data

Tier 3:

- Tier III core team meeting minutes (Last 3 meetings)
- Tier III action team meeting minutes (Last 3 meetings)
- Decision rules for selecting students for Tier 3
- Assessment tools for Tier 3 (i.e. functional behavioral assessment, mental health, medical records, etc.)
- Three randomly selected Behavior Intervention Plans
- Tier 3 data summary (last two reports)

Once the walkthrough has been completed and the team has gathered the required documentation, they are ready to take the TFI. It is recommended that the TFI be taken by the team in cooperation with an external coach, although the team can take it by themselves.

The TFI is divided into three sections or scales, one for each tier. Each section has 15-17 items. Each item is scored 0 (not in place), 1 (partially in place), or 2 (fully in place). The team votes on how to score each item, and the score with the majority of votes is recorded. According to the PBIS National Center (Algozzine, Barrett, Eber, George, Horner, Lewis, Putnam, Swain-Bradway, and McIntosh, 2014) each Tier of the TFI takes between 15 and 30 minutes for the team to complete, depending on their level of experience and whether they gathered the necessary artifacts ahead of time. PBIS National Center recommends that the team complete the sections for all three tiers the first time that they take the TFI, in order to obtain baseline scores. After that, the team may elect to take all three sections, or they may choose to take only those sections that pertain to their level(s) of implementation.

PBIS National Center (Algozzine, Barrett, Eber, George, Horner, Lewis, Putnam, Swain-Bradway, and McIntosh, 2014) also recommends that teams take the TFI each quarter until they achieve three consecutive total scores of 80% for the Tier that is assessed. After that, they may choose to shift to an annual assessment for that particular Tier.

MO SW-PBS recommends that teams that are training and/or implementing at Tier 2 or better, as well as teams that have achieved two consecutive scores of 80/80 on the SET, take the TFI for the levels at which they have been trained and/or are implementing at least annually in the spring. For teams new to Tier 2 or Tier 3, MO SW-PBS also recommends they take the TFI in the fall of their first year of training at that level for baseline comparison. In addition, schools may choose to take a given scale of the TFI at any time during the school year for purposes of progress monitoring improvement efforts at that tier.

To accurately assess each tier, the Tier 1 team completes the Tier 1 scale; the Tier 2 Team completes the Tier 2 scale; and the Tier 3 team completes the Tier 3 scale. Scoring is based on artifact review and stakeholder feedback.

To assist schools in taking the TFI and obtaining reports, the faculty of Educational and Community Supports operating out of the University of Oregon has included the TFI on the PBIS Assessments site. This site is free to schools, and is accessed through PBIS APPS (https://www.pbisapps.org/). A small number of school based personnel are set up with a PBIS APPS Assessments Team Member account, through which these individuals may access surveys and download survey reports for their school. To obtain your free PBIS APPS Assessments account, contact your MO SW-PBS Regional Consultant.

Prior to entering TFI scores in PBIS Assessments, the team will need to contact their MO SW-PBS regional consultant, so that he or she can open a TFI window. Although PBIS Assessments allows teams to return and edit a TFI submission, MO SW-PBS recommends that teams complete all scales of the TFI that they

intend to take prior to entering the data into PBIS Assessments. To assist teams in accomplishing this, teams may use the MO SW-PBS TFI Scoring Guide located at the end of the chapter.

To enter scores from the TFI into the PBIS Assessments site, a team member with a PBIS APPS Assessments account must first log into the PBIS APPS site, and then navigate to PBIS Assessments. If the team member only has access to PBIS Assessments, he or she will automatically be directed to the school's PBIS Assessments site. However, if the team member also has access to other PBIS APPS products (i.e., SWIS), the team member will need to select "Assessments" from the menu bar at the top of the screen.

The team member will then choose the "Schoolwide PBS Tiered Fidelity Inventory 2.10" from among the open surveys, then click on "Take Survey." The team member will enter the date, then use the two dropdown menus to identify who was involved in taking the survey, and who conducted the TFI Walkthrough. The team member will then click on the green button with the >> symbol to move onto the remainder of the survey. For each item, the rating that received the highest number of votes from the team members is recorded. **Scores should not be entered for those sections that the team is not assessing, as a 0 indicates "Not Implemented," whereas a blank simply indicates "No Score."** When all the scores are entered, there will be a green button with the following symbols: << >>. The team member entering the information should click on the >> symbol, which will navigate to a page that allows the team member to submit the survey.

TOTAL SCORE

📑 🛄 💽 🔂 📰 💼 🏓 🚥

The total score report gives a big picture snapshot of the school. In this example, the team has taken the TFI twice, once on May 5, 2014, and a second time on May 22, 2015. As can be seen, the total score dropped significantly between the first administration of the TFI and the second. It should be noted teams do not have to complete each of the three TFI scales in order to submit. Scales not completed are still included in the total score. As such, total scores are not necessarily comparable from one administration of the TFI to the next, and teams should use caution when interpreting these scores.

SCALE

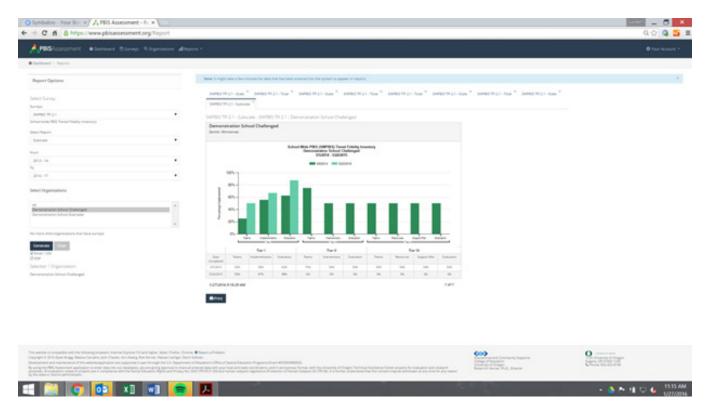

The scale report provides a quick, visual summary of the level of implementation at each of the three tiers. Notice that the team reports a fairly significant improvement in the implementation of Tier 1. Also notice that this team took all three scales of the TFI during the first administration on May 4, 2014, but only completed the Tier 1 scale on May 22, 2015. This may explain the significant decrease in the total score on the second administration of the TFI.

SUBSCALE

The subscale report gives the team information regarding implementation fidelity in the scales of each of the three tiers. The chart below indicates the school showed improvements in all Tier 1 scales of the TFI between the first and second administration. However, the chart also suggests that the team has opportunities for growth in the scale of "Tier 1 Teams." This team may want to take a closer look at how they rated themselves on each of the items in the "Tier 1 Teams" scale to identify specific areas around which to plan action steps.

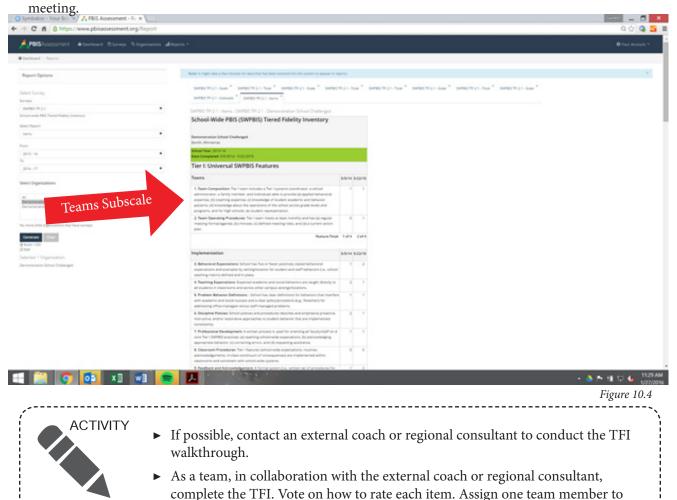

ITEMS

The final TFI report is the items report. This is a report of how the team rated themselves on each of the items on the TFI. It is divided into scales and subscales so that the team can quickly analyze their scores on any given scale, and identify appropriate action steps based on this analysis. Depending on the complexity of the items, the team should focus on a small number of goals and action steps at a time.

In our example, the team noted an opportunity for growth on the scale report in the subscale "Tier 1 Teams." The item report indicates that they rated themselves a 1 partially in place in both "Team Composition" and "Team Operating Procedures." Referring to the artifacts that they used as they rated these items as well as their knowledge of their team function, the team decides that they can improve their team composition by adding a member with behavioral expertise. They also realize that they can improve their team's operating procedures by utilizing an agenda and identifying team roles and responsibilities. The team discusses these items, and decide that both are realistic action steps to have in place by their next

- enter the scores into the PBIS APPS Assessments Site.Review the Total Score report, the Scale report, and the Subscale report.
- If a score is low for a Scale, review the responses to the items for that particular Scale section of the items report. These become goals for your action plan.
- Develop action steps to address the areas of concern identified in your analysis of the data.

SWPBIS Tiered Fidelity Inventory Walkthrough Tool

OVERVIEW

Purpose

This form is used as part of completing the SWPBIS Tiered Fidelity Inventory's Tier I scale. Use this form to interview a random selection of staff (at least 10% of staff or at least 5 for smaller schools) and students (minimum of 10). This process should take no more than 15 minutes.

Who Should Complete the Tool?

It is recommended that this tool is completed by an individual who is external to the school (e.g., external coach, coordinator, evaluator). This use allows for the Tiered Fidelity Inventory to serve as more of an external evaluation than self-assessment. Alternatively, an individual from the school team may complete this tool if the purpose of assessment is for progress monitoring between external evaluations.

Procedure

Randomly select staff and students as you walk through the school. Use this page as a reference for all other interview questions. Use the interview form to record staff and student responses.

TFI Optional Questions

1. Of all students in the school, report the percent of students currently being successful in both academics and behavior:

Possible data sources:

- Behavior: discipline data, educational placement (indicator 5) data
- Academic: AYP, CBM/academic screening scores, %of students passing all classes
- 2. Of the students receiving Tier 2 supports, report the percent of students currently being successful in both academics and behavior:

Possible data sources:

<u>Behavior</u>: Discipline data, educational placement (indicator 5) data, attendance (for students receiving Tier 2 supports) <u>Academic</u>: AYP, CBM/academic screening scores, % of students passing all classes, grades, credits (for students receiving Tier 2 supports)

3. Of the students receiving Tier 3 supports, report the percent of students currently being successful in both academics and behavior:
