

CHAPTER 11: TIER 2 ACTION PLAN

LEARNER OUTCOMES

At the conclusion of this chapter, you will be able to complete the Tier 2 Action Plan which includes the following goals:

- ▶ Assess readiness for developing a Tier 2 system.
- ▶ Gain staff commitment to develop Tier 2.
- ▶ Develop a Tier 2 Team action plan.
- ▶ Establish a team to oversee development and implementation of Tier 2.
- ▶ Develop a systematic process to identify students at-risk for social, emotional, and/or behavioral challenges.
- ▶ Develop a system for collecting information that identifies function of behavior and matches student need with readily available intervention.
- ▶ Identify a system for monitoring student progress.
- ▶ Select one Tier 2 intervention that will be developed in your setting.
- ▶ Pilot the selected intervention with a small number of staff, students, and families.
- ▶ Identify additional intervention facilitators as needed so that the intervention can be provided for greater numbers of students and sustained over time.
- ▶ Document interventions that are regularly available in your setting.
- ▶ Regularly monitor Tier 2 implementation status.
- ▶ Develop a system for providing ongoing professional learning.

Action Plans are useful because they give teams a framework for thinking about how they will **efficiently complete a task or project**. Action Plans help teams finish activities in a **sensible order**, and they ensure that key steps are not overlooked. **It is recommended that reviewing the Tier 2 Action Plan is a standard, ongoing agenda item for the Tier 2 Team.**

The Tier 2 Action Plan aligns with MO SW-PBS Tier 2 training and includes essential goals and steps/activities to create a Tier 2 system of support and to implement that system with fidelity. Tier 2 Teams may supplement the action plan with additional goals and steps/activities based upon individual needs.

For each goal, **“Steps and Documents”** outline end products that indicate successful completion of the goal. Suggested steps/activities/supports/ressources are included in this area that assist in identifying what needs to be done to accomplish the goal.

Teams document in the **“Timeline”** when steps/activities are projected to be completed. Initial **“Who is Responsible”** is a place to document delegation of tasks to specific team members, who are responsible for task completion and communication to stockholders., and **“Evaluation Measure/Evidence”** is asking how will you measure the fidelity of your step. In the **“Review Status”** the team will assess if each step has been achieved and maintained, or is in progress or has not been achieved.
