# MO SW-PBS Terms/Abbreviation/Acronym Glossary

Schoolwide Positive Behavior Support (SW-PBS) includes specialized vocabulary following implementation of an intervention. Ensuring all stakeholders in your school community are communicating clearly is an important component of maintaining a common philosophy and purpose. Frequently used terms, abbreviations and acronyms are included here for your reference. Your team may consider including this list in your staff handbook, or otherwise communicating the information to the members of your school community.

## MO SW-PBS GLOSSARY OF TERMS—TIER 1-2-3

### A

**Acquisition:** First phase of learning when a student is learning a new skill. This phase is followed by fluency, maintenance and generalization.

**Action Plan:** A framework for thinking about how to complete a task or project efficiently.

**Action Team:** Formed for each student in order to conduct the FBA, develop the BIP, and monitor progress for data-based decision making.

**Active Supervision:** Strategy for monitoring a large area (i.e., classroom, hallway, playground) that involves scanning, moving, and interacting.

**Adapted FACTS:** Adapted Functional Assessment Checklist for Teachers and Staff (FACTS – Part A). Used in referring students to Tier 2 or Tier 3 Teams for consideration.

**Advanced Tier Spreadsheet:** A MO SW-PBS developed tool for collecting and graphing student outcome data for students participating in Tier 2 and Tier 3 Interventions.

**Aggregate:** To collect and summarize all data together, undifferentiated by subgroups.

**Alterable Indicators of Risk:** Actions, conditions, or behaviors that can be changed to improve the student outcomes (tardiness, task difficulty, disengagement, etc).

**Alternate Replacement Behavior:** A short term replacement behavior which serves the same function as a student's problem behavior, but is more consistent with expectations until the student can perform the desired behavior consistently.

**Always Applicable:** Defining schoolwide and classroom rules that can be used every day.

**Amotivation:** A complete lack of motivation for or value of the activity or knowledge in consideration, or perceived lack of competence with the activity.

**Antecedent:** Events that happen immediately before and trigger a behavior.

**Applied Behavior Analysis (ABA):** The design, implementation, and evaluation of environmental modifications to produce socially significant improvement in behavior.

**At Risk:** Students whose behaviors have been documented as unresponsive to Tier 1 practices and systems. Usually exhibit low intensity, frequent difficulty performing expectations, but not to the point of chronic problem behavior.

**Autonomy:** Being in control of one's life, self-determination.

**Aversive Stimulus:** A (negative) stimulus or event that can increase (when it is an antecedent) or decrease (when a consequence) a behavior.

**Avoid:** A function of behavior in which the student exhibits problem behavior in order to disengage from people or tasks/situations.

## **B**

**Baseline Data:** The current level of functioning that is compared to the phase immediately following an intervention.

**Base Rate:** The proportion of students in the school who exhibit emotional or behavioral risk (Kilgus & Eklund, 2016).

**Behavior:** Any observable and measurable act of an individual.

**Behaviors/Rules:** Specific tasks students are to do to achieve the schoolwide expectations.

**Behavior Education Program (BEP):** A Check-In, Check-Out Intervention for students at risk (Tier 2 Practice)

**Behavior Intervention Plan (BIP):** A written description that defines how an educational setting will be changed to improve the behavioral success of the student.

**Behavior Pathway:** A component of the Behavior Intervention Plan (BIP) in which the student behavior is described in observable, measurable terms, and setting events, antecedent events, consequences, and function are identified.

**Behavior Support Plan (BSP):** Also referred to as the Behavior Intervention Plan (BIP).

**Beliefs:** Underlying sentiments, assertions, or assumptions that inform the customs or practices of a group.

**Big 5 ODR Report:** The compilation of a school's office discipline referral (ODR) data, which includes: 1) average referrals per day per month, 2) behavior, 3) location, 4) time, and 5) students involved. Used for problem identification and action planning and to monitor progress on efforts.

**Big 5 Generator:** A MO SW-PBS developed electronic data management system that collects and charts office discipline referral frequencies by incident, behavior, location and time of day.

## **C**

**Check & Connect:** A Tier 2 intervention developed by University of Minnesota used with K-12 students who shows warning signs of disengagement with school and who are at risk of dropping out.

**Check-In, Check-Out:** A Tier 2 intervention, sometimes referred to as the Behavior Education Program (BEP). Students are presented with daily/weekly goals and then receive frequent feedback on meeting the goals throughout the day.

**Chronic Behaviors:** Persistent behaviors that are repeated or reoccurring over a period of time; the behavior has persisted for a while.

**Class-Wide Function-Related Intervention Teams (CW-FIT):** Group contingency classroom management program consisting of teaching and reinforcing appropriate behaviors (i.e., getting the teacher’s attention, following directions, and ignoring inappropriate behaviors of peers), improving students’ on-task behavior and increasing teacher recognition of appropriate behavior.

**Coaching:** Job embedded professional learning provided to support implementation of new skills and practices. Frequently involves modeling, observing, providing feedback.

**Common Formative Assessments:** Assessments developed collaboratively by teams of teachers that are given to students across the grade or content level, and are used to monitor student progress and inform midcourse correction.

**Communication Plan:** A document describing how the PBIS team will share information with members of the team, staff, school community, and general public.

**Competence:** Succeeding in what is to be done, belief in one’s ability to succeed, self-efficacy.

**Competing Behavior Pathway:** A component of the Behavior Intervention Plan (BIP) in which the student behavior is described in observable, measurable terms, and setting events, antecedent events, consequences, and function are identified and which also lists an appropriate alternate replacement behavior, as well as the desired replacement behavior.

**Composition Metrics:** This metric shows the percentage of total outcomes experienced by subgroup relative to the percentage of the total enrollment made up by that subgroup.

$$\frac{\text{Total Number of Outcomes by the Subgroup}}{\text{Total Number of Outcomes by all Students}} \quad \text{Compared to} \quad \frac{\text{Number of students enrolled in subgroup}}{\text{Number of Students Enrolled in School}}$$

**Comprehensive System of Identification:** Student identification system which uses at least two of the following systems – existing school data, teacher/parent nomination, and Universal Screening.

**Consequence:** The resulting event or outcome that occurs immediately following the behavior. May increase, maintain or decrease the likelihood of future behavior.

**Consistently Implemented:** Practice or intervention is in place across all settings and by all persons who are involved, and used with fidelity.

**Context Analysis:** Data gathered to give information about the environment and/or conditions that exist which are associated with when a behavior is more or less likely to occur.

**Continuously Available:** As related to Tier 2 interventions, flexible grouping with multiple, fluid entry points throughout the school year.

**Coordinator:** Person who coordinates schoolwide implementation of the overall Tier 2 practices and systems.

**Core Team:** A stable group consisting of administrator, person with behavioral expertise, and a person with academic expertise that is responsible for developing the Tier 3 system as well as being the intake team for student referrals.

**Culturally Responsive:** Behaviors, attitudes and policies that come together in a system to work effectively in cross-cultural situations.

## D

**Daily Progress Report (DPR):** A tool used to record data related to student performance of targeted expected behaviors identified as part of a Tier 2 intervention. The student receives ratings and feedback from teachers throughout the day about their level of performance of each of the expected behaviors, usually on a point rating scale.

**Data:** Information used to make decisions, including records of behavioral incidents, attendance, tardies, achievement, staff and student perceptions and others.

**Data-Based Decision Making:** A systematic process for analysis of information that leads to action steps.

**Data Collection Tool:** A MO SW-PBS developed electronic data management system that collects and summarizes office discipline referral frequencies by incident, behavior, location, time of day, student, possible motivation, others involved, staff, race and ethnicity, and others.

**Data Decision Rules:** The school-determined data points describing student performance as proficient, at-risk, or high risk. Data decision rules are typically developed for quantitative school data like number of office discipline referrals, minor behavior referrals, attendance, grades, assessment scores, etc.

**Desired Behavior:** In Tier 3, the desired behavior is the long-term behavior the team has identified as a replacement for the current problem behavior.

**Didactic Training:** Also known as direct training, is training which includes content, rationale, demonstration, practice, and feedback components.

**Discipline:** Instruction that corrects, molds or perfects character and develops self-control.

**Disaggregate:** To separate and present data by subgroups.

**Disproportionality:** To treat categories inequitably, as when categories of students experience different disciplinary consequences for similar offenses.

**Duration:** A measurement of how long a behavior occurs, or how long an individual engages in a behavior.

## E

**End of Year Reports (EOY):** Reports available from MO SW-PBS that aggregates data from a variety of sources, to provide a complete assessment of the state of the school.

**Engaged Time:** The amount of instructional time where students are actively engaged in learning.

**Environment:** The physical, social, academic, and emotional conditions that exist for the student. This can refer to the classroom environment, the school environment, the home environment, etc.

**Environmentally Mediated:** Manipulation of the full set of stimulus conditions in an environment which controls a target behavior.

**Equity:** The quality of being fair and impartial.

**Existing School Data Inventory:** Template used by teams when developing their data decision rules.

**Expectations:** 3-5 words that define the kind of people you want your students to be.

**Explicit Bias:** Disproportionality that is consistently high across all settings. Also called systematic bias.

**Externalizing Behaviors:** Behavior problems that are observable and overt, often directed toward people and/or objects in the social environment.

**Extinction:** Withholding reinforcement for a previously reinforced behavior to reduce the occurrence of the behavior.

**Extrinsic Motivation:** When an individual engages in an activity to attain a separable outcome (e.g., to receive an external item or activity of preference, to fit into a group, to master a skill or gain knowledge needed for later).

**Evidence-based Practice:** A process intended to link evidence with ethical and practical/application issues when making decisions about practices and interventions.

## **F**

**Facilitator:** The Intervention Facilitators deliver the Tier 2 interventions to the students. The CICO Facilitators would do the morning check in and afternoon check out. SSIG Facilitators would lead the social skills groups. Facilitators deliver the intervention and collect the student data from the DPRs on a regular basis to be reported to the Intervention Coordinator.

**Fading:** The process by which a student who has shown positive response for an adequate time will transition from participation in an intervention to self-monitoring independence.

**Feedback:** The information provided to students by adults and other students about how well they are performing the expected behaviors. Feedback can be categorized as positive (reinforcing the expected behavior), corrective (telling the student what the expected behavior is for the situation), and negative (giving the student a message to stop their current behavior with no information about a replacement behavior).

**Fidelity:** Delivery of the intervention in the way in which it was designed to be delivered.

**FIRST STEP Next:** Evidence-based early intervention program designed for young children, preschool through second grade, who exhibit challenging behaviors such as defiance, conflicts with peers, and disruptive behaviors.

**Fluency:** Second phase of learning. When a task/skill is performed without error or interruption in a change of behaviors.

**Formative Data:** Data used to monitor progress; used to make mid-course corrections during a cycle, lesson, unit, program, or intervention.

**Frequency or rate (of behavior):** The number of times a behavior occurs during a set period of time.

**Function of Behavior:** The need fulfilled through the performance of a specific behavior. The function of behavior can be categorized as behavior to obtain (attention, tangible item) or avoid (attention, task, stimulus).

**Function-based:** Refers to a consequence that increases the likelihood that a behavior will be performed.

**Function Based Intervention:** A specific practice intended to reduce the performance of problem behavior by addressing the student need (function of behavior) through performance of expected or desired behaviors.

**Functional Analysis (FA):** A strategy of manipulating a student's environment to test the hypothesis statement.

**Functional Behavior Assessment (FBA):** A process for identifying the events that predict the occurrence and maintenance of a behavior.

## G

**General case (programming):** The design of instruction for students to perform a task with any member of a class of stimuli.

**Generalization:** Fourth phase of learning where behavior occurs under different conditions other than those taught (people, settings, etc.).

**Graduating:** Successfully completing an intervention, and maintaining the expected or desired behavior through independent self-monitoring.

## H

**High Risk:** Typically describes students who have excessive rates of problem behavior, or especially intense problem behaviors, and will likely require intensive, rather than targeted, intervention.

## I

**Identification Process:** The plan created by the school's Tier 2 and Tier 3 Teams communicating how students can be considered for additional support. The identification process should include at least two of the following methods of identification: meeting school data decision rules, teacher/parent nomination, and universal screening.

**Implicit Bias:** An unconscious association regarding some groups based on stereotypes which are activated involuntarily and without an individual's awareness or intentional control (Staats, 2014).

**Individualized Education Plan (IEP):** A document that details the goals and objectives for a student's yearly educational plan.

**Input Data:** Data to monitor or evaluate adult actions; fidelity of implementation data; cause data.

**Instructional Time:** The amount of the allocated time that actually results in teaching.

**Intervention:** In SW-PBS, an intervention is a research-based universal (primary), targeted small group (secondary) or intensive individual (tertiary) support implemented for students who are experiencing difficulties meeting the universal expectations.

**Intense Behavior:** The force or magnitude of the behaviors impact on the classroom environment.

**Intensive (Tertiary) Interventions:** Interventions that provide support to students with the most severe risk factors and who display chronic/repetitive patterns of behavior.

**Internalizing Behaviors:** Behavior problems that the students directs inwardly toward him or herself.

**Intrinsic Motivation:** Participating in an activity simply for the enjoyment of the activity itself.

**In-vivo support:** In-vivo or in a real life situation support can include the coach providing modeling, coaching and/or feedback while instruction is occurring during a teacher's classroom instruction.

## **J**

**Job Embedded Professional Development (JEPD):** Professional learning opportunities that occur in an authentic context (i.e., with students).

## **L**

**Lawful Behavior:** Relationships between events that occur naturally that predict behavior and identify associated environmental antecedents and consequences.

**Learning:** A durable change in behavior associated with environmental conditions.

**Levels of Learning:** Hierarchies of learning in cognitive, affective, and psychomotor areas that classify possible learning outcomes in terms of increasingly abstract levels and include acquisition, fluency, maintenance, generalization, and adaptation.

**Locus of Causality:** The extent to which individuals perceive their actions as caused by internal or external reasons.

## **M**

**Maintenance:** The third phase of learning. The ability to perform a behavior over time.

**Measureable:** Defining schoolwide or classroom behaviors that could be counted.

**Menu of Function Based Interventions:** A MO SW-PBS document containing setting strategies, antecedent strategies, teaching strategies, and consequence strategies to help teams plan for behavior intervention planning.

**Mission:** Defines a school or district purpose. They are practicable, a blueprint for current practice or what we do. Missions answer the questions, "Why do we exist? What do we do?"

**Modeling:** The demonstration of behavior. May be used to prompt or teach a behavior.

**MO Student Support Model:** A graphic representation of the required elements for intensifying supports for students who continue to demonstrate difficulties after Tier 1 components are delivered. See reference in Chapter 1 of the Tier 2 Workbook.

**MO SW-PBS Data-Based Decision Making (DBDM) Process:** A decision making process that can guide teams in making data based decisions.

**MO SW-PBS Universal Tier 1 Checklist:** A Checklist developed by MO SW-PBS to assist teams in determining fidelity of implementation of Tier 1 universal systems and practices, and to identify needs for action planning.

**MO SW-PBS School Outcomes Data:** Provides information on outcomes for students, especially for students with disabilities, or who are referred for additional academic or behavioral supports. Supplements data collected throughout the year, and is a critical source of information for the MO SW-PBS End of Year Reports that are provided to school. Submitted to MOSWPBS@Missouri.edu in June of each school year.

**Multi-User Survey:** A survey which includes many respondents. Such surveys include the SAS and SSS.

## **N**

**Natural Reinforcement:** Reinforcement that is the direct result of that behavior.

**Negative Punishment:** Removal of a stimulus immediately following a behavior that decreases the likelihood of behavior occurring in the future.

**Negative Reinforcement:** Removal of a stimulus preceding a behavior that increases the likelihood of behavior occurring in the future.

**Neutralizing Routines:** Replacement behaviors for teachers to implement at those vulnerable decision points when disproportional consequences are more likely to occur.

**Nomination:** A process that allows teachers, parents, and/or students themselves to submit candidate names to be considered for Tier 2 supports.

**Norms:** Protocols and commitments developed by each team to guide members in working together. Norms help team members clarify expectations regarding how they will work together to achieve their shared goals.

## **O**

**Observable:** Defining schoolwide and classroom rules that are behaviors that can be seen.

**Observation:** Formative or summative assessment of a teacher or student, can be formal or informal. Typically longer in duration than a walkthrough.

**ODR (Office Discipline Referral):** Usually the result of a “major” discipline violation, the ODR refers to the paperwork associated with sending a student to the office to receive a consequence as the result of problem behavior.

**Operational Definition:** A descriptive statement that specifically identifies commonly agreed upon behavior that is directly observable and measurable.

**Opportunity Costs:** Resources spent on one activity are not available for other activities.

**Outcome Data:** Data gathered to monitor or evaluate progress toward desired outcomes or goals; effect data.

## **P**

**Performance Deficit:** A failure to perform the expected behavior at acceptable levels or in the correct circumstance.

**Permanent Products:** Items to be reviewed as evidence of meeting a goal. Permanent products can include writing samples, completed assignments, drawings, etc. When using permanent products as consideration for goal achievement, quality of the item should be considered.

**Person Centered Planning:** A team-based planning process for an individual's future goals that focuses on strengths and abilities of the individual and his or her inclusion within community life.

**PBIS APPS:** A web based survey and data collection site operated by the University of Oregon's Educational and Community Supports (ECS). Applications include The SWIS Suite, PBIS Assessments, PBIS Evaluation. <https://www.pbisapps.org/Pages/Default.aspx>

**PBIS Assessments:** An application within PBIS Apps that allows users to take a number of SW-PBS surveys.

**Phases of Learning:** Sequential stages in gaining skill mastery that include: a) acquisition, b) fluency, c) maintenance, and d) generalization.

**Poor Response to Intervention:** A review of data shows there is a gap between the trend line and the student's goal line that continues to widen.

**Positive Behavior Support (PBS):** A broad range of systematic and individualized strategies to achieve important social and learning outcomes while preventing problem behavior among all students.

**Positive Peer Reporting (PPR):** Simple procedure that is used to promote positive peer interactions, improves peer perceptions of students who tend to be socially rejected or neglected and encourages all children to focus on and report prosocial behaviors of their peers.

**Positive Reinforcement:** Presentation of a stimulus immediately following a behavior that increases the likelihood of behavior occurring in the future.

**Positive Response to Interventions:** Data indicates the student is making progress toward his/her goal and will reach the goal within a reasonable amount of time.

**Positively Stated:** Creating rules that tell students what to do to be successful.

**Practices:** Strategies and interventions schools put in place to support students.

**Praise:** An expression of admiration for performance that serves to reinforce the behavior; verbal recognition. Often used interchangeably with specific positive feedback.

**Pre-correction:** Reminders before entering a setting or performing a task to promote successful demonstration of expected behaviors.

**Primary (Universal) Interventions:** Preventative, universal supports implemented with all students that promote safety, positive school culture, and an effective learning environment at the whole school level.

**Problem Behavior:** Behavior which is inconsistent with the expectations for the environment. For example, yelling is a problem behavior in a library, but not necessarily on a playground. Some problem behavior can be undesirable across settings, such as hitting or hurting others.

**Problem Solving Process:** The process that groups can use in order to engage in meaningful dialogue in order to reach a resolution to a problem.

**Procedures:** Methods or process for how things are done in non-classroom settings and in each classroom.

**Professional Development:** Support services for educators; often describing a single event such as face-to-face training only.

**Professional Learning:** A systematic process of support for all school staff that can include face-to-face training, observation, coaching, resource banks of materials, communication plans, virtual supports, etc.

**Progress Monitoring:** The ongoing collection and review of data to determine the performance of a student participating in an intervention.

**Prompt:** A stimulus (reminder, hint, or cue) that increases the probability the correct response will be emitted.

**Punishment:** A consequence that decreases the likelihood that the problem behavior will recur (Skinner, 1938).

## Q

**Quality of Life (QoL):** A construct that attempts to conceptualize what “living the good life” means (Wehmeyer and Schlack, 2001).

**Questionable Response to Interventions:** A review of data shows there is a gap between the trend line and the student’s goal line that may not be widening but closure may not occur in an acceptable amount of time.

## R

**Read Only (PBIS Assessments):** Refers to a level of access in a PBIS Assessments account. Individuals with read only access can log into PBIS Assessments, and pull reports for surveys associated with their organization.

**Readiness:** The degree to which a team is meeting the established criteria for adding to their SW-PBS system. There are specific readiness checklists for moving to Tier 2 and to Tier 3.

**Reinforcement:** An overarching term for a contingently delivered consequence associated with an increased likelihood of future behavior.

**Relatedness:** Connecting with others, belonging.

**Reliability:** The degree of accuracy or consistency in measurement procedures.

**ReNew:** A structured school-to-career transition planning and individualized wraparound process for youth with emotional and behavioral challenges.

**Response to Intervention:** “The practice of providing high-quality instruction and interventions matched to student need, monitoring progress frequently to make decisions about changes in instruction or goals, and applying child response data to important educational decisions” (Batsche et al., 2005).

**Reward:** Something that reinforces a desired behavior, most often a preferred tangible/object or activity; often used interchangeably with “reinforcement,” but has acquired a controversial tone and misconstrued as bribery.

**Risk Index:** “A risk index is the percent of a group that receives a particular outcome (most commonly an ODR or suspension), which is equivalent to the likelihood of someone from that group receiving that outcome,” (p. 5, McIntosh, K., Barnes, A., Eliason, B., & Morris, K. (2014). The risk index is calculated by dividing the number of students in a group who have experienced the outcome at least once by the number of students in the group, then multiplying by 100.

**Risk Ratio:** A measure of the likelihood of an outcome occurring for a target group relative to a comparison group. Calculated by dividing the risk index of the target group by the risk index of the comparison group. The risk ratio is considered to be a more stable metric for monitoring disproportionality than is the risk index.

$$\frac{\text{Risk Index of Target Group}}{\text{Risk Index of Comparison Group}} = \text{Risk Ratio}$$

## S

**Screening Instrument:** A short questionnaire, rating scale, or other brief instrument for gathering information about emotional and behavioral characteristics of students.

**Secondary Support:** Targeted, group-based interventions for students who present risk factors and who require repeated practice and environmental modifications to increase their likelihood of academic and social success.

**Self Determination:** “Acting as the primary causal agent in one’s life and making choices and decisions regarding one’s quality of life free from undue external influence or interference” (Wehmeyer, 1996).

**Self-Monitoring:** Having an individual monitor, record and/or report his or her own behavior.

**Serviceable Base Rate:** The amount of students identified as at risk who could reasonably be served in a small group or individual intervention with the current resources available in the school (Kilgus & Eklund, 2016).

**Setting Event:** Conditions or events that influence behavior by temporarily changing the value or effectiveness of reinforcers.

**Short Term Replacement Behavior:** In a competing behavior pathway, the short term replacement behavior is an alternate behavior to the problem behavior which serves the same function, but is an agreeable step toward the desired behavior which is consistent with the universal expectations. For example, if a student argues and uses bad language to try to avoid tasks he or she finds aversive, a short term replacement might be to ask for a break from the tasks instead of arguing. This still allows for a degree of task avoidance, but is less problematic than the former behavior. Eventually, the desired behavior will be for the student to complete tasks independently, even if the task is aversive, but this is too far removed from the current reality without the temporary replacement behavior.

**Single User Survey:** A survey for which only one response is entered into the survey site, such as the TFI and SET.

**Skill Deficit:** Absence of knowledge or insufficient understanding of when to use the expected behavior.

**Social Competence:** The ability to use the appropriate social skills for a situation or environment.

**Social Reinforcement:** Social behaviors (i.e., smiles, praise) that increase the frequency or rate of behavior occurrence.

**Social Skills:** Learned behaviors which can be verbal and non-verbal, requiring both initiations and responses (interactive), and are highly contextual. The five broad dimensions of social skills include: Peer Relations Skills, Self-Management Skills, Cooperation or Compliance Skills, Assertion Skills, and Academic Skills.

**Social Skills Intervention Groups (SSIG):** Specific secondary (targeted Tier 2) intervention for teaching social skills to students who demonstrate deficits in acquisition, performance and fluency, or who have competing problem behaviors which interfere with the performance of a learned skill.

**Social Validity:** the acceptability or relevance of a program or procedures to its consumers.

**Specific Positive Feedback:** Verbal reinforcement; a form of social reinforcement that provides information on successful behavior while reinforcing or increasing the likelihood that behavior will be repeated; combines social attention, instruction, and reinforcement.

**Stability:** The consistency of performance measured, sometimes referred to as overlap when performance is compared between research study phases.

**Standardized:** Following a specifically prescribed protocol, frequently a process or instrument that has been 'normed' on a specific population to be reliable to a specific degree when used as instructed.

**Stimulus:** An object or event that may occasion a response.

**Student Identification:** The process by which students are brought to the attention of the Tier 2 or Tier 3 Team for consideration for further support or intervention.

**Summary Statement:** The summary statement narrows down all the assessment information gathered into one or two succinct statements that allow the team to develop strategies based on the summary. A summary statement usually includes a) problem behavior, b) triggering antecedent, c) maintaining consequences, and d) setting events.

**Summative Data:** Data that is collected and reviewed in order to evaluate the effects of the steps that were taken to determine whether the desired outcomes were achieved.

**Sustainability:** The process of maintaining fidelity, through inevitable changes, so a practice continues to be effective in the long term.

**Systems:** Strategies and interventions schools put in place to support adults in the school setting.

## T

**Target Behavior:** The focus behavior to change.

**Targeted (Secondary) Interventions:** Targeted, group-based interventions for students who present risk factors and who require repeated practice and environmental modifications to increase their likelihood of academic and social success.

**Task Analysis:** Breaking complex behavior into its component parts to teach individuals to perform complex behavior and sequences/chains of behaviors.

**Teacher Approval:** Used in research to assess the relationship of teacher behavior to student learning; generally verbal praise and encouragement, but may also include non-verbal attention (e.g., smiles, facial attention, touch, etc.).

**Teaching:** Systematic manipulations of instructional and social variables that create a change in behavior.

**Teacher Mediated:** Teacher manipulation of stimuli to control a target behavior.

**Teacher Nomination:** One way students are identified for consideration for Tier 2 or Tier 3 support. The team develops a form and a process for teachers that is clear, quick, and simple.

**Team Member (PBIS Assessments):** Refers to a level of access in a PBIS Assessments account. Individuals with Team Member access can log in, copy multi-user survey links to send to stakeholders, enter responses for single user surveys, and pull survey reports for their organization.

**Tertiary (Intensive) Interventions:** Interventions that require support to students with the most severe risk factors and who display chronic/repetitive patterns of violent, disruptive, or destructive behavior.

**Three-tiered Model:** A mental health approach to identify and address the needs of all student populations at three levels of interventions (primary, secondary and tertiary).

**Tier 2 (Targeted):** More specialized and intensive practices and systems for supporting students whose behaviors have been documented as unresponsive to Tier 1 practices and systems. Sometimes called secondary supports or system, or small-group targeted intervention.

**Tier 3 (Intensive):** Highly specialized and individualized practices and systems for supporting students whose behaviors have been documented as unresponsive to Tiers 1 and 2 practices and systems. Sometimes called tertiary supports or system, or intensive individual intervention.

**Time-out from Positive Reinforcement:** A procedure that serves as a punishment by denying a student, for a fixed period of time, the opportunity to receive reinforcement.

**Tootling:** A positive intervention that can be added to existing classroom systems to enhance students' awareness of positive behavior of other students. It encourages students to notice pro-social behaviors displayed by their classmates throughout the day, and report them on a written note. It is particularly effective in classrooms that experience high rates of student turnover and classrooms with students who are at risk for isolation or peer rejection due to persistent negative behaviors.

**Trend (in data):** An indication of a distinctive direction in the performance of a behavior.

**Triangulation:** In social sciences, the process of checking results or conclusions from one data set against the results or conclusions from two or more other data sets.

## U

**Understandable:** Defining schoolwide and classroom rules using student-friendly language.

**Universal Interventions:** Preventative, universal supports implemented with all students that promote safety, positive school culture, and an effective learning environment at the whole school level.

**Universal Screening:** A method for systematically identifying students who may require additional support. Typically screening instruments require a response to short statements about emotional or behavioral characteristics of a student. These instruments can be used to generate risk scores for all students in a grade level, building or district.

## **V**

**Validity:** The extent to which an instrument or procedures demonstrates soundness. Internal validity is the extent to which the instrument or procedures assesses behavior in the domain of interest. External validity is the extent to which the outcomes of the FBA/FA predict future occurrences of behavior and result in support plans that work.

**Variability:** Visual description of data. The range of highest to lowest performance measured.

**Vision:** A clearly articulated, results-oriented picture of the future you intend to create. A vision focuses on the end-results and values, not on specific means of getting there.

**Vulnerable Decision Point:** When a problem behavior occurs, the point when a teacher realizes they may be vulnerable to a biased response.

## **W**

**Wait Time:** The time lapse between delivering a question and calling on a student or cueing a group response.

**Walkthrough:** Brief (three to ten minute) classroom visits in which the visitor records observations of the use of predetermined evidence-based practices.

**Wrap-around:** A process for planning the delivery of services that is provided by agencies and professionals in collaboration with families for students with intensive/tertiary support needs.

## MO SW-PBS ABBREVIATION/ACRONYM GLOSSARY

Abbreviation / Acronym	Meaning	Tier
ABA	Applied Behavior Analysis	all
ABC	Antecedent -> Behavior -> Consequence	all
APBS	Association for Positive Behavior Support	n/a
ASQ-3	Ages and Stages Questionnaire: Third Ed. (Universal Screener)	all
