Back to School Staff Kickoff

A fun, engaging refresher of PBIS strategies and
classroom practices

BOOM!!!!

GO!

What It Looked Like:

Planning

- Decided on “Amazing Race”-style game
- Much planning to select/coordinate strategies, challenges, and activities
- Wanted some things to be specific to our school - needs, activities

Goal

- Review our PBIS
- Effective Classroom Practices in a fun way that engaged all staff

What It Looked Like:

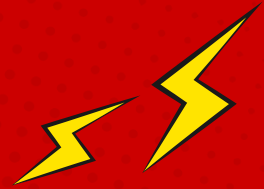

During:

- **Staff Divided into Teams-** Leadership chose teams so that they were a mixture of staff/areas/grade levels.
- **8 Challenges:** Research/Application/Fun- everyone started in the gym with Tier 1 Leadership Team members running the challenges/stations
- **Give me those clues!!** After each challenge was completed, team was given a clue (a number)- challenges did not have to be solved in order
- **Solve the puzzle first and WIN!** Teams used their number clues to unlock a box and complete a puzzle- first team finished won the BIG prize
- Lots of movement, collaboration, and of course, PRIZES!
- Everyone met in the cafeteria after for a follow-up quick discussion

CLICK HERE FOR A COPY OF THE SPECIFIC CHALLENGES WE USED.

What It Looked Like:

Reflection:

POSITIVE OUTCOMES:

- Everyone left with high energy and excited for the school Year
- Fun and Engaging PD
- Team Building

NEGATIVE OUTCOMES:

- We did not regroup to reflect on learning
- Did not take into consideration competitiveness which got in the way of learning
- Did not offer rest stations or water
- Not everyone can run like Forrest Gump

THANKS!
